

# Jens Mogens Olesen

## Personal information

Position:	Professor emeritus
Name:	Jens Mogens Olesen
ORCID:	0000-0003-1998-1083
Personal site:	<a href="https://pure.au.dk/portal/da/persons/jens-m-olesen">https://pure.au.dk/portal/da/persons/jens-m-olesen</a>

## Education

1977	M.Sc. (Cand. Scient.), Aarhus Univ., Plant evolutionary biology
1984	Ph.D., Aarhus Univ., Population ecology
1986	M.Hort. (Cand. Hort., Royal School of Agriculture, Insect ecology

## Employment

2018–	Professor Emeritus, Aarhus University.
2010–2018	Full Professor in Ecology, Aarhus University.
1994–2010	Associate Professor in Population ecology, Aarhus University.
1990–1994	Assistant professor in Population ecology, Aarhus University
1986–1990	Research manager, Danfoss
1977–1986	Research fellow, Royal School of Education

## Awards

2000	WWW/Novozymes Biodiversity Award.
2006	Charles Mercer award for best paper in ecology ( <i>Ecological Society of America</i> ), together with J. Bascompte & P. Jordano.

## Research skills and experience

### ● Research fields:

- *Island ecology*: Studies of the dynamics of biotic interactions on islands, especially pollination.
- *Ecological network science*: Studies of ecological interaction networks.

### ● Student training (1990–2018):

8 Postdocs/15 PhD students/ 1 Marie Curie stipend/~150 MSc students/~100 BSc students. p.t. co-supervisor of one Portuguese PhD-student and one Spanish.

### ● Member of European Research Council board 26, Bruxelles 2016-2020 (Ecology & Evolution)

## ● Projects

- Island biology: Studies of the dynamics of biotic interactions on islands.
  - A) Frugivory in Tenerife and continental Europe (co-supervision of PhD-student Sara Mendes, Univ. Coimbra, main supervisor Ruben Heleno and Manuel Nogales, CSIC-IPNA).
  - B) Pollination of Canarian red-flowered Lotus by birds and lizards (coll. with Alfredo Valido PI, CSIC-IPNA, Tenerife).
  - C) General database construction of all mutualistic interactions on the Canary Islands (coll. with Alfredo Valido PI, CSIC-IPNA, Tenerife).
- Ecological network science: Studies of ecological interaction networks, including all kinds of interactions between species and individuals.
  - D) Hierarchical network theory (coll. with Markus Sydenham, PI, Oslo Univ., and Yoko Dupont, Aarhus Univ.).
  - E) Urban bee-flower networks and their beta diversity (coll. with Yoko Dupont, PI, Aarhus Univ.).

## ● Principal publications

Publication statistics: ~200 peer-reviewed publications, ~100 popular papers and books  
~15.300 citations/h-index 58 (*Web of Science*)—April 2024  
~24.600 citations/h-index 72 (*Google Scholar*)— April 2024

## ● Principal publications

- Dupont, Y. L., Madsen, H. B., Greve, M. B., Rasmussen, C., Timetéo, S. & **Olesen, J. M.** *in press*. Structure of a metacommunity of urban bees: Species diversity and spatio-temporal modularity. *Basic and Applied Ecology*.
