PROFESSIONAL AND PERSONAL PROFILE

I am a positive, dedicated, and proactive cattle veterinarian. At Kvægdyrlægerne Midt, I largely plan my own tasks, which is possible because I am conscientious, flexible, and able to work independently.

I prioritise emergency work, partly to create variation in my daily work and partly to ensure space and capacity to manage parallel responsibilities. I often have many ongoing projects and initiatives in development. I consider it one of my strengths that I maintain an overview, set clear personal deadlines, and ensure execution.

My board work in the Danish Veterinary Association's Group for Cattle and Other Production

Animals provides opportunities to realise several of my ideas and gives me insight into the political processes behind livestock production—both nationally and internationally.

I am receptive to feedback and actively reflect on and improve my performance.

In October, I returned from maternity leave with our third and final child. I take pride in balancing my professional life with being a mother of three young children. At the same time, we look forward to improved childcare options as we recently moved closer to my partner's family in Solbjerg, Rebild Municipality.

EDUCATION

2011- 2017

Veterinary Medicine

PROFESSIONAL EXPERIENCE

2017 - present

2019 – Magasinet Kvæg: Post-mortem examinations can provide answers to many questions

VISION

To continue as a committed and professional cattle veterinarian who inspires and shares the profession with future colleagues. To improve conditions for (newly) employed veterinarians so they thrive and remain in clinical practice, thereby contributing to a sustainable and strong future for our profession.
